Re: Patent Application No. 10/605,040

---

**Correction of reference error in claims 13, 14, 15, and 16**

Dear Mr. Phillips:

I'm aware of the rigid rules under § 1.312 that do not permit any amendments after allowance and payment of Issue Fee.

Unfortunately, as a result of me trying to establish multiple relationships between the various claims I committed a serious reference error. The effected claims are: Claims 13, 14, 15, and 16.

In the correct structure, claim 13 should refer back to claim 1, while claims 14, 15, and 16 should refer to claim 13.

Those claims should read:

**13. (currently amended): An apparatus specified in Claim[s] 1, 4,  
7, 8, 9, 10, 11, or 12 1, where the cleaning nozzle is retractable  
to a non-use position.**

- 14. (currently amended): An apparatus specified in Claim[[s]] 1, 4,  
~~7, 8, 9, 10, 11, or 12~~ 13, where the cleaning nozzle movement  
into an operating position is cleaning fluid pressure activated.**
- 15. (currently amended): An apparatus specified in Claim[[s]] 1, 4,  
~~7, 8, 9, 10, 11, or 12~~ 13, where the cleaning nozzle movement into  
an operating position is solenoid activated.**
- 16. (currently amended): An apparatus specified in Claim[[s]] 1, 4,  
~~7, 8, 9, 10, 11, or 12~~ 13, where the cleaning nozzle movement into  
an operating position is mechanically activated.**

**Enclosed is a marked up copy of all claims that reflects this change.**

I hope that this error can be corrected prior to issue and approved by the Director.

I will try to call you to discuss this matter and get your point of view.

Kind regards,

W. A. Haberkorn
